Section 4 - Security

House Checks

While the Association employs personnel to monitor the general condition of the roads, road rights of way and Recreational Facilities and as a courtesy conducts periodic checks of unoccupied Member owned homes, the condition and security of each Member's home and any other property located on his or her lot, is the sole responsibility of the Member. **The Association does not have and it does not assume any responsibility for any of the following, regardless of cause: (a) any loss (including theft), damage or destruction to any Member's home or other property, or (b) any accident, event or other occurrence on or in the Member's property.** When periodic checks are made, Association personnel will attempt to note any evidence of forced entry, water leaks, or other abnormalities visible from the exterior of the home and Management will endeavor to notify the affected Member of such condition, and other authorities if deemed appropriate. In the case of water leaks or broken or burst pipes or open or unlocked doors noted by Association personnel, Association personnel may shut water off at the meter to prevent further damage or secure such doors. The Association will not request, manage or monitor repairs or other work of trade contractors or public utilities on behalf of a Member.

It is the responsibility of the member to notify the Management office of arrivals and departures. The Member should provide the management Office with the names, expected times of arrival and departure of persons (Tenants and Houseguests) occupying their home in the Member's absence. If a member wishes to cancel, discontinue or restart their house check they should do so in writing and submit it to the management office.

Clifftops personnel do not check homes for owners who are not Members as defined in the by-laws.

Clifftops personnel do not check homes for owners that have not completed the "Clifftops Release for Property Checks" and paid the fee for the security button (Forms are available on line at www.clifftops.net or at the management office).

Checks will not be performed on homes under construction or if access to a home is considered to be unsafe or dangerous, i.e. excessive overgrowth, driveways that are rough or otherwise impassable by the security vehicle, structural deficiencies, etc. In such cases Management will attempt to notify the Member. Property checks will be discontinued until the problem has been corrected and the member has notified Management.

Public Authorities.

Clifftops is not in the city limits of Monteagle: however the local volunteer fire department may respond when requested. Clifftops is in the police jurisdiction of the Sheriff of Marion County, but the Monteagle Police Department may respond if a situation is serious or life-threatening. **No Association personnel have law enforcement authority of any kind. Association personnel**

will not answer burglar alarm calls or any other incident or situation normally associated with law enforcement or EMS action.

Access to Clifftops

Access into Clifftops can be obtained only through the use of a gate card or transmitter, admission by an attendant on duty at the gate house or through the use of the Syntex telephone/gate opening system. The gate system is monitored by video cameras.
